and acutely sensitive to your changing feelings and moods is the foundation of April Frost's original and highly effective training program. One of the most difficult aspects of training your dog is communicating your intentions clearly. *Beyond Obedience* is the first book that works on the way you communicate with your dog, providing you with the necessary tools to truly understand how your dog's mind works and therefore how you can create an effective and mutually satisfying relationship. Drawing on her extensive experiences as an animal behaviorist, Frost teaches you that training your dog should not be a tedious chore limited to exerting physical and psychological control over an animal's drives but instead an enriching and spiritually fulfilling experience gratifying for both human and animal. Frost discusses such essential concepts as mutual respect, unconditional love, mental and emotional discipline, and your expectations and priorities. She shows you how the insights gained from working with your dog can have positive, far-ranging effects on many areas of your life. *Beyond Obedience* revolutionizes dog training by addressing the spiritual, physical, and psychological needs of dogs and people, teaching them to communicate effectively through powerful techniques including visualization and energy work, and offering them valuable insight into the emotional bonds that enrich the lives of animals and their companions.

Guidelines: Dogs are born knowing how to bark, bite, dig, chew, chase, jump up on one another, eliminate when they need to, and snarl when they feel threatened. It is a challenge to get a dog to suppress or modify his instincts in order to make human existence more pleasant. If the dog reverts, you need to remember that these acts are not malicious; the dog is simply doing the best he can with information he has been given about living with and behaving in a socially acceptable way toward a totally different species. Dogs can learn whatever you can find a way to teach them so long as it is within their physical capability to perform. Dogs like humans take the path of least resistance; they do only what works well and easily to satisfy their needs and desires. If it is a self-rewarding move, they will repeat and escalate the behavior, whether that behavior is in harmony or conflict with your wishes. Every dog has its own point of motivation, a trigger that will evoke a response and awaken its desire to respond to its human.
