and acutely sensitive to your changing feelings and moods is the foundation of April Frost's original and highly effective training program. One of the most difficult aspects of training your dog is communicating your intentions clearly. *Beyond Obedience* is the first book that works on the way you communicate with your dog, providing you with the necessary tools to truly understand how your dog's mind works and therefore how you can create an effective and mutually satisfying relationship. Drawing on her extensive experiences as an animal behaviorist, Frost teaches you that training your dog should not be a tedious chore limited to exerting physical and psychological control over an animal's drives but instead an enriching and spiritually fulfilling experience gratifying for both human and animal. Frost discusses such essential concepts as mutual respect, unconditional love, mental and emotional discipline, and your expectations and priorities. She shows you how the insights gained from working with your dog can have positive, far-ranging effects on many areas of your life. *Beyond Obedience* revolutionizes dog training by addressing the spiritual, physical, and psychological needs of dogs and people, teaching them to communicate effectively through powerful techniques including visualization and energy work, and offering them valuable insight into the emotional bonds that enrich the lives of animals and their companions.

Guidelines: Dogs are born knowing how to bark, bite, dig, chew, chase, jump up on one another, eliminate when they need to, and snarl when they feel threatened. It is a challenge to get a dog to suppress or modify his instincts in order to make human existence more pleasant. If the dog reverts, you need to remember that these acts are not malicious; the dog is simply doing the best he can with information he has been given about living with and behaving in a socially acceptable way toward a totally different species. Dogs can learn whatever you can find a way to teach them so long as it is within their physical capability to perform. Dogs like humans take the path of least resistance; they do only what works well and easily to satisfy their needs and desires. If it is a self-rewarding move, they will repeat and escalate the behavior, whether that behavior is in harmony or conflict with your wishes. Every dog has its own point of motivation, a trigger that will evoke a response and awaken its desire to respond to its human.

After You Get Your Puppy Ian Dunbar,2001 Now you have your puppy the clock is ticking and you need to meet three more Developmental Deadlines before your puppy is five months old 4th Developmental Deadline Socializing Your Puppy to People Your Most Urgent Priority is to socialize your puppy to a wide variety of people especially children men and strangers before he is twelve weeks old Well socialized puppies grow up to be wonderful companions whereas antisocial dogs are difficult time consuming and potentially dangerous As a rule of thumb your puppy needs to meet at least one hundred people before he is three months old Since your puppy is still too young to venture out to dog parks and sidewalks you ll need to start inviting people to your home right away 5th Developmental Deadline Teaching Bite Inhibition Your Most Important Priority is that your puppy learns to inhibit the force of his bites and develop a soft mouth before he is eighteen weeks old Whenever a dog bites a person or fights with another dog the single most important prognostic factor is the degree of bite inhibition and hence the likelihood and seriousness of injury Accidents happen Someone may tread on the dog s paw or a child may trip over the dog while he s gnawing a bone A dog may snap and lunge at a person when hurt or frightened but if the dog has well established bite inhibition it is unlikely the dog s teeth will puncture or even touch the skin 6th Developmental Deadline Continuing Socialization in The World at Large The Most Enjoyable Priority of dog ownership is to introduce your well socialized puppy to the world at large Your dog will only remain sociable and confident if he continues to meet and greet at least three unfamiliar people and three unfamiliar dogs every day

Meeting the same people and dogs over and over is not sufficient Your dog needs to practice meeting greeting and getting along with strangers not simply getting along with old friends Regular walks with your dog are as essential as they are enjoyable
